“The innovative cheese sensation!”

Cheesepop is a unique snack made from a single ingredient: cheese.
No additives! That tastes like a pure and honest product.

“As a culinary
extra”

Thanks to its powerful, concentrated taste of cheese, Cheesepop already provides in small quantities for a distinctive taste in culinary dishes.

Its durability allows time-saving work for professional kitchens with a pure cheese product that ensures the right condiment in salads, carpaccio's and small appetizers.

In addition, Cheesepop is a welcome addition to the traditional cheese plate!

“Also as a luxury cocktail snack”

Cheese[®] Pop

Innovative product

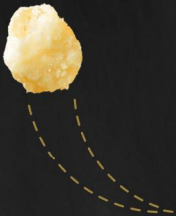

Innovative is the way Cheesepop is produced. The cheese is cut, dried and then freshly popped. This new manufacturing method creates a unique pop with a powerful cheesy taste.

Gouda cheese

The city of Gouda is the cradle of Dutch cheese. It is therefore not surprising that Gouda cheese is acclaimed throughout the world for its quality. Cheesepop is a product whose only ingredient is this first class cheese. The unique and pure taste of cheese is a strong feature of the pops.

“Now also available in convenient bulk packaging!”
