

# Welcome to Flavour Creations

## An Australian Owned and Operated Company

---

Innovative, safe and solution-driven nutritional products are the hallmark of Flavour Creations and the foundation of our success. Two decades ago, Flavour Creations were the pioneers in Dysphagia Management and today remain the international market leaders. Our unique functional concepts and first-to-market solutions are driven by a commitment to *quality of life for all*.

## Innovative “Food First” Solutions

### The Flavour Creations Approach

---

Our industry experience and flexibility have made us the go-to people for our clients, assisting with your dysphagia and nutrition management and providing cost effective solutions.

Our “Food First” approach means supplementing real food with targeted nutrition. Our unique approach combines a variety of flavours and textures to increase compliance, optimising your clients’ health status.

In addition to our world-leading products, we provide comprehensive training and monitoring systems.

#### **Transparency, respect and honesty:**

- » In all of our activities in your facility
- » With budgeting, training and reporting

#### **Allergen & religious food control with good food governance:**

- » Our products are manufactured in a gluten and nut free facility.
- » Certified ISO, HACCP, WQA & Dairy export for your safety.
- » Kosher and Halal certified.

### Our Key Drivers

---

- Innovative, safe and solution driven.
- Making every mouthful count – maximising nutrition in every gram.
- Cross-contamination and foodborne illnesses are one of the major challenges facing facilities caring for the sick and elderly. We at Flavour Creations assist you to control:
  - » Infection and cross-contamination
  - » Reduction of foodborne illnesses
- Flavour Creations packaging and product design address cross-contamination and foodborne illnesses whilst considering all clients’ needs, in particular those suffering from dementia, arthritis or other disabilities.
- Patient safety through ongoing dysphagia research.
- Your clients reaching their optimal health status.

## Every Mouthful Counts

***“Caring for the sick, frail and elderly can be an emotive issue and we remain sensitive to the needs of all our stakeholders.”***

## ***Our Mission Statement***

---

***“To create innovative and nutritional product solutions, to enhance the quality of all human life in an ethical and sustainable environment.”***

Is honoured through the integrity of our research, pride in our compassionate approach to our clients and engineered product and service offerings, with an unwavering commitment to our staff.

## ***Our Successes***

---

For two decades Flavour Creations have been delivering dysphagia and nutritional solutions to public hospitals, nursing homes and the community throughout Australasia and New Zealand. Our list of gratified clients drives us to continue building better products for you, for better patient outcomes.
